GENERAL INFORMATION

GENERAL INFORMATION

Program of Continuing Education

The Program of Continuing Education offers an extensive range of undergraduate courses during the late afternoon, evening and Saturday morning hours each Spring and Fall semester, as well as day and evening courses during two intensive Summer Sessions.

The Program is specifically designed to encourage part-time educational studies for self-enrichment or professional advancement. The emphasis of the Program is to provide adult students with the opportunity to succeed in one or two courses at a time, as well as a chance to attend college while holding a job or having other responsibilities which make it difficult to attend college on a full-time basis.

Off-Campus Program

When it became apparent that numbers of students in neighboring cities and towns were interested in programs offered by Continuing Education, an Off-Campus Program was established. In 1973 five courses were offered at one Off-Campus location. The program grew rapidly and this semester, over 350 undergraduate and graduate courses will be offered at more than twenty Off-Campus centers throughout the Greater Metropolitan Area.

Input from local communities continues to be important to the Program. Presently we are working cooperatively in programs with community schools, elementary and secondary schools, community colleges, hospitals, governmental agencies, business, industry, as well as with community and professional groups. We will expand these cooperative efforts in the coming year, as we continue to look for opportunities to provide educational resources to the people and the communities we serve.

Information on courses being offered this semester at our Off-Campus centers is listed on page 32.

The Open College

Learning what you want, where you want, and when you want is now possible at Boston State College through the Open College. Five complete undergraduate courses are now offered for college credit in cassette (tape) form. Printed supplementary material is included with course tapes.

Each course offers 3 credits and is divided into units and modules. When you complete one unit, you receive the next. A phone call to the Open College will settle questions or problems you may have on any part of any Open College courses. Tutors will be available at specific times to help you master the course materials.

Courses offered through the Open College:

- | | |
|---------|--|
| 7642-48 | Fundamental Principles of Mathematics (M101) |
| 7679-48 | Physical Sciences I (PS101) |
| 7920-48 | Music Theory (MS101) |

Tuition: \$165 per course including fees and materials. For information call: 731-0097.

The Center for Educational Development

Staffed by Boston State professors, and supported by resources from other colleges and universities, from business and industry, and from the community, the Center offers in-service education to schools and school systems. The staff of the Center will help you plan and implement in-service education for credit for your school, based upon your interests and concerns. For information call 731-4012.

College Courses for High School Seniors

Through the Off-Campus Program, high school seniors can take college courses for credit. Undergraduate offerings (courses listed with a 7000 number) are now open to qualified high school seniors. Registration for courses is open as long as you have a letter signed by your high school guidance counselor indicating your interest and qualifications. High school seniors are also invited to talk with the staff of the Open College about the possibility of taking courses offered in take home form on cassette tapes (see Open College). For information about college courses for high school seniors, call 731-4012.

Urban Learning Center

Located on the Boston campus but serving individuals and groups of students in off-campus locations, the center offers programs for high school seniors and adults, who are interested in preparing for college. Programs offered through the Urban Learning Center include:

The Flexible Admissions Program: a college prep program designed to assist high school seniors with lackluster academic records, and involve them in an intensive prep program for 30 weeks. The subject matter is critical: reading, writing, mathematics, and science. Concurrent with classes, the student is counseled as to self-concept, academic problems and career ambitions.

After completing the program with academic success, the student is guaranteed admission into the State College System.

The G.E.D. Preparation Program: an intensive program to prepare students for the successful completion of exams awarding the high school certificate.

An Afterschool Reading Program: for elementary school students and parents.

Upon successful completion of either the Flexible Admissions or the G.E.D. Program, a student is guaranteed admission to Boston State College. For further information, please call: 731-3300, Ext. 217-219.

Register during the Walk-In registration period and pay auditing fees (\$28.00 per credit hour). Any student wishing to change from credit to audit or vice versa *MUST* do so through the "Change of Registration" procedure in the Office of Continuing Education. The Division of State Colleges through the Program of Continuing Education reserves the right to cancel any course which does not have sufficient paid enrollments to be self-supporting. The student must:

1. be a citizen or permanent resident of the United States.
2. have been accepted by the Admission's office to take courses in PCE (matriculated)
3. have filled out all required financial aid forms
4. be enrolled in six (6) credit hours or more.

The Financial Aid Programs available are:

2. Supplemental Educational Opportunity Grant (S.E.O.G.)
3. National Direct Student Loan (N.D.S.L.)
4. College work Study (C.W.S.)
5. Guaranteed Insured Loan (H.E.L.P.) or (G.I.S.L.)

Grade Reports

Grade reports are issued to the student approximately two weeks after the end of each semester. The grade report is an unofficial statement of a student's academic progress for one semester. Grade reports cannot be used as transcripts.

Grades — Incomplete (Graduates)

Graduate students may be granted a grade of incomplete by the instructor for good and sufficient reason. Grades of Incomplete should be resolved as soon as possible. The program director and graduate committee of the various Master's and C.A.G.S. programs are free to develop their own policies regarding grades of incomplete and will consider each student's case individually.

Grades — Incomplete (Undergraduates)

INC (incomplete) may be given when all the requirements of the course have not been completed; however, the student must, in the judgment of the instructor, have already successfully completed a substantial part of the requirements. In order to receive a grade in a course with an INC (incomplete), the student shall make arrangements directly with the instructor. It is the student's responsibility to contact the instructor.

ALL INCOMPLETES MUST BE MADE UP BY THE EIGHTH WEEK OF THE SEMESTER IMMEDIATELY FOLLOWING THE SEMESTER IN WHICH THE INCOMPLETE WAS RECEIVED. If this requirement is not fulfilled, the designation of incomplete becomes a final grade of 0.0. A grade can never be removed from the transcript.

Office Hours: Faculty

The faculty of the Program of Continuing Education come from the Boston State faculty, from neighboring colleges and universities and from the business and professional community. Each faculty member will determine his or her own office hours and will inform students of the time and place. The Continuing Education Office will not give out faculty addresses or telephone numbers under any circumstances.

Student Classification

Students may register for courses in the Program of Continuing Education under two basic categories:

UNCLASSIFIED (Nondegree Candidates): Students may register for courses as unclassified students if they have not applied for admission to an undergraduate or graduate degree program. Registration in course work is equivalent to admission to the Program of Continuing Education as an Unclassified student.

MATRICULATED (Accepted Degree Candidates): Students who have applied and been formally admitted to an undergraduate or graduate degree program register as matriculated students. Graduate students interested in applying for matriculation should follow procedures listed in the Graduate catalog; undergraduate students should schedule an appointment with a counselor in the Office of Continuing Education before applying for matriculation. Although it is not always required, many prospective degree candidates who have been away from formal accredited study for a lengthy period of time have found it beneficial to complete 15 credits of course work prior to applying for acceptance into a degree program. Undergraduate students may matriculate and pursue a degree through the Program of Continuing Education in most of the academic programs offered at the College. However, certain programs requiring specialized course and field work or clinical supervision are available only through the Day Division. It is suggested that undergraduates interested in applying for matriculation talk with a counselor to discuss academic degree requirements, transfer credit, credit by examination opportunities and the selection of a beneficial program of study.

Student I.D.'s

I.D. Cards are required of all students and will be requested for the use of the library and other college facilities. Photos will be taken at the Boston Campus during Walk-In registration and during the first week of classes. The price is \$1.50 and should be included with your tuition and fees at the time of registration. Students possessing a valid 1978-79 Boston State College I.D. need not purchase a new I.D. at this time.

Transcripts

Transcripts may be requested in person in the Accounting Office, Room 108 Administration Building, or through the mail, and must be pre-paid. Transcripts may be obtained upon request at the rate of \$1.00 each. No telephone requests will be honored. When ordering transcripts through the mail, please supply the following information: name, date of birth, dates of attendance, maiden name (if applicable) and where you would like the transcript(s) sent. Mail requests should be sent to:

OFFICE OF THE REGISTRAR
(Room 210A)
Boston State College
625 Huntington Avenue
Boston, MA 02115

Transcript requests will be processed according to the guidelines listed below:

1. One week for mail and in-person requests.
2. If current semester's grades are required, this must be indicated on the request form. These requests will be honored within two (2) weeks of the time the semester grade reports are mailed out.

Transferring Credits To Another Institution

If you are presently enrolled in a degree program at another college or university and you wish to transfer credit to that program for courses taken at Boston State, obtain approval of your "home" institution before registering for courses here. Written authorization from your "home" institution to attend courses at Boston State College is not required by our office. An official Transcript may be obtained according to the policy listed under "Transcripts."

In addition, the General Education requirements specified in the undergraduate catalog must be completed. Transfer students must complete at least thirty semester hours at Boston State College to be awarded a degree. Department chairpersons must be consulted to determine the applicability of advanced transfer courses.

Undergraduate Admission to Graduate Courses

Undergraduate admission to 9000-level graduate courses requires written permission. Students may contact the Program of Continuing Education for assistance.

SPECIAL PROGRAMS

Accounting/Finance

Public Accountancy Certificate Program A New Program

To become a Certified Public Accountant, you must meet the certification requirements of the particular state in which you wish to practice. Although the exact certification requirements may vary, all states require that a CPA candidate be of good moral character, pass all parts of the Uniform CPA Examinations, and meet specific educational and experience requirements.

The primary purpose of the Public Accountancy program is to prepare people to enter the field of accountancy at a professional level. A central goal, therefore, is to provide the specific kind of educational background that is prerequisite to being able to write the CPA exams and that will satisfy the field educational requirement for certification in most states.

If you are presently working in accounting, this program can help you advance your knowledge and skills to a higher level of professional practice. If you are seeking entry into the field, this program can help you master the fundamental skills needed for a wide variety of job opportunities in public or private accounting. Persons who successfully complete all requirements of this program will be awarded a certificate, in formal recognition of professional education in public accounting.

Persons interested in applying for admission to the Public Accountancy Certificate Program should contact Professors Lee Staebler and Joann Stewart, Room 409F, 731-3300 Ext. 8-212. Refer to Accounting/Finance Section, Page 14 for course offerings.

Although this is not a methods course, you will examine research on teaching writing and practical approaches to it.
